Table of Contents

Volume 58, Number 1, March 2003

1 J. A. Milne
Editorial

2 P. D. Barrett, D. A. McGilloway, A. S. Laidlaw and C. S. Mayne
The effect of sward structure as influenced by ryegrass genotype on bite dimensions and short-term intake rate by dairy cows

12 B. Kramberger and S. Klemenčič
Effect of harvest date on the chemical composition and nutritive value of *Cerastium holosteoides*

17 C. P. Ferris, D. C. Patterson, F. J. Gordon and D. J. Kilpatrick
The effect of concentrate feed level on the response of lactating dairy cows to a constant proportion of fodder beet inclusion in a grass silage-based diet

28 A. Ghanbari-Bonjar and H. C. Lee
Intercropped wheat (*Triticum aestivum* L.) and bean (*Vicia faba* L.) as a whole-crop forage: effect of harvest time on forage yield and quality

37 C. A. Marriott, G. R. Bolton and J. M. Fisher
Changes in species composition of abandoned sown swards after imposing seasonal cutting treatments

50 R. W. J. Steen and M. G. Porter
The effects of high-concentrate diets and pasture on the concentration of conjugated linoleic acid in beef muscle and subcutaneous fat

58 A. C. Gange and S. J. Case
Incidence of microdochium patch disease in golf putting greens and a relationship with arbuscular mycorrhizal fungi

Volume 58, Number 2, June 2003

101 J. P. Hillman, J. Hill, J. E. Morgan and J. M. Wilkinson
Recycling of sewage sludge to grassland: a review of the legislation to control of the localization and accumulation of potential toxic metals in grazing systems (Review Article)

63 A. H. Marshall, A. Williams, M. T. Abberton, T. P. T. Michaelson-Yeates and H. G. Powell
Dry matter production of white clover (*Trifolium repens* L.), Caucasian clover (*T. ambiguum* M. Bieb.) and their associated hybrids when grown with a grass companion over 3 harvest years

70 D. R. Cope, J. M. Rowcliffe and R. A. Pettifor
Sward height, structure and leaf extension rate of *Lolium perenne* pastures when grazed by over-wintering barnacle geese

77 A. R. Sibbald, J. R. Jones, T. J. Maxwell, J. M. M. Munro, D. A. Davies, M. E. Rees, M. Fothergill and A. J. I. Dalziel
The implications of controlling grazed sward height for the operation and productivity of upland sheep systems in the UK: 6. The effect of reducing stocking rate and application of fertilizer nitrogen in Wales

90 T. A. Williams, M. T. Abberton and I. Rhodes
Performance of white clover varieties combined in blends and alone when grown with perennial ryegrass under sheep and cattle grazing (Research Note)

94 I. Zabalgogeazcoa, B. R. V. de Aldana, A. G. Ciudad and B. G. Criado
Fungal endophytes in grasses from semi-arid permanent grasslands of western Spain (Research Note)

98 Book Reviews

112 W. M. Griffiths, J. Hodgson and G. C. Arnold
The influence of sward canopy structure on foraging decisions by grazing cattle. I. Patch selection

125 W. M. Griffiths, J. Hodgson and G. C. Arnold
The influence of sward canopy structure on foraging decisions by grazing cattle. II. Regulation of bite depth

138 F. Garcia, P. Carrère, J. F. Soussana and R. Baumont
How do severity and frequency of grazing affect sward characteristics and the choices of sheep during the grazing season?

151 M. B. McGechan
Modelling phosphorus leaching to watercourses from extended autumn grazing by cattle

160 Y. F. Wang, S. P. Wang, X. Y. Cui, Z. Z. Chen, E. Schnug and S. Haneklau
Effects of sulphur supply on the morphology of shoots and roots of alfalfa (*Medicago sativa* L.)

168 G. Lien, A. R. Kristensen, A. Hegrenes and J. B. Hardaker
Optimal length of leys in an area with winter damage problems

178 T. H. Terrill, S. Gelaye, S. Mahotiere, E. A. Amoah, S. Miller and W. R. Windham
Effect of cutting date and frequency on yield and quality of kudzu in the southern United States

184 J. M. Moorby, P. R. Evans and N. E. Young
Nutritive value of barley/kale bi-crop silage for lactating dairy cows

192 C. P. Ferris, F. J. Gordon, D. C. Patterson, C. S. Mayne and M. A. McCoy
A short-term comparison of the performance of four grassland-based systems of milk production for autumn-calving dairy cows

210 G. Gyulai, Z. Mester, J. Kiss, L. Szeman, A. Idnurm and L. Heszky
Somaclonal breeding of reed canarygrass (*Phalaris arundinacea* L.)

215 A. Elgersma and H. Schlepers
Effects of white clover cultivar and companion grass on winter survival of seedlings in autumn-sown swards (Research Note)

220 J. M. Koivisto, L. R. Benjamin, G. P. F. Lane and W. P. Davies
Forage potential of semi-leafless grain peas (Research Note)

224 Book Review

Volume 58, Number 3, September 2003

225 J. Tharmaraj, W. J. Wales, D. F. Chapman and A. R. Egan
Defoliation pattern, foraging behaviour and diet selection by lactating dairy cows in response to sward height and herbage allowance of a ryegrass-dominated pasture

239 H. G. J. Snell, C. Oberndorfer, W. Lücke and H. F. A. Van den Weghe
Effects of polyethylene colour and thickness on grass silage quality

249 M. Hetta, J. W. Cone, A.-M. Gustavsson and K. Martinsson
The effect of additives in silages of pure timothy and timothy mixed with red clover on chemical composition and *in vitro* rumen fermentation characteristics

258 J. M. Wilkinson and J. Hill
Effect on yield and dry-matter distribution of the stay-green characteristic in cultivars of forage maize grown in England

265 R. G. Pulido and J. D. Leaver
Continuous and rotational grazing of dairy cows – the interactions of grazing system with level of milk yield, sward height and concentrate level

276 A. G. T. Schut and J. J. M. H. Ketelaars
Monitoring grass swards using imaging spectroscopy

287 E. J. McKendrick, D. J. Roberts and N. W. Offer
The value of malt distillers' grains ensiled with molassed sugar beet pellets as a feed for dairy cows

295 A. H. Marshall, M. T. Abberton, T. A. Williams, T. P. T. Michaelson-Yeates and H. G. Powell
Forage quality of *Trifolium repens* L. × *T. nigrescens* Viv. hybrids

302 S. K. Dong, R. J. Long, Z. Z. Hu, M. Y. Kang and X. P. Pu
Productivity and nutritive value of some cultivated perennial grasses and mixtures in the alpine region of the Tibetan Plateau

309 J. Bertilsson and M. Murphy
Effects of feeding clover silages on feed intake, milk production and digestion in dairy cows

323 A. Elgersma, G. Ellen, H. van der Horst, B. G. Muuse, H. Boer and S. Tamminga
Influence of cultivar and cutting date on the fatty acid composition of perennial ryegrass (*Lolium perenne* L.)

Volume 58, Number 4, December 2003

333 A. A. Clua and D. O. Gimenez
Environmental factors during seed development of narrow-leaved bird's-foot-trefoil (*Lotus tenuis*) influencing subsequent dormancy and germination

339 I. F. López, J. Hodgson, D. I. Hedderley, I. Valentine and M. G. Lambert
Selective defoliation by sheep according to slope and plant species in the hill country of New Zealand

350 M. Duru and L. Delaby
The use of herbage nitrogen status to optimize herbage composition and intake and to minimize nitrogen excretion: an assessment of grazing management flexibility for dairy cows

362 G. P. Keane, J. Kelly, S. Lordan and K. Kelly
Agronomic factors affecting the yield and quality of forage maize in Ireland: effect of plastic film system and seeding rate

372 D. L. Easson and W. Fearnehough
The ability of the Ontario heat unit system to model the growth and development of forage maize sown under plastic mulch

385 A. G. T. Schut and J. J. M. H. Ketelaars
Assessment of seasonal dry-matter yield and quality of grass swards with imaging spectroscopy

397 C. L. Marley, R. Fychan, M. D. Fraser, A. Winters and R. Jones
Effect of sowing ratio and stage of maturity at harvest on yield, persistency and chemical composition of fresh and ensiled red clover/lucerne bi-crops

407 U. Hesse, W. Schöberlein, L. Wittenmayer, K. Förster, K. Warnstorff, W. Diepenbrock and W. Merbach
Effects of *Neotyphodium* endophytes on growth, reproduction and drought-stress tolerance of three *Lolium perenne* L. genotypes

416 P. L. Peri, D. J. Moot and D. L. McNeil
A canopy photosynthesis model to predict the dry matter production of cocksfoot pastures under varying temperature, nitrogen and water regimes

431 F. Nevens and D. Rehuel
Effects of cutting or grazing grass swards on herbage yield, nitrogen uptake and residual soil nitrate at different levels of N fertilization

450 O. Correll, J. Isselstein and V. Pavlu
Studying spatial and temporal dynamics of sward structure at low stocking densities: the use of an extended rising-plate-meter method (Research Note)
